Release Notes 8/29/2022

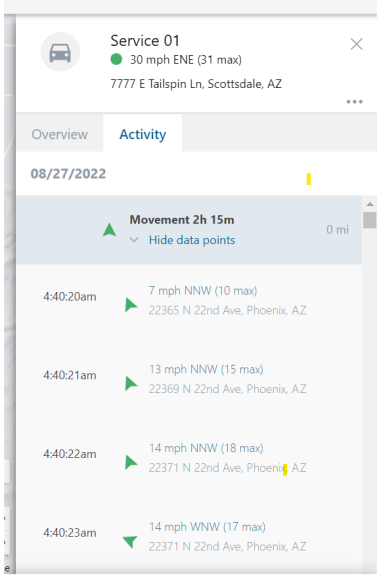
Link: https://help.wextelematics.com/release-notes-8-29-2022/ Last Updated: August 29th, 2022

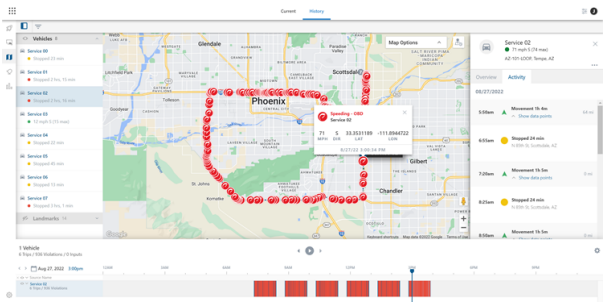
This Product Release Notes announcement for Enterprise customers includes updates for the Portal.

Portal

Activity Feed

You can now view vehicle activity using the Activity Feed feature for a specific date directly from the Vehicle Card of the Portal Map page. You can interact with the Activity Feed by changing to History at top of Map and clicking on an activity point to see the vehicle's location on the map. The vehicle card will open and you can view data points for movement activity to see the directional heading, speed (including max speed), and location.





For more information about the Activity Feed, please see Viewing Vehicle Activity.

Vehicle Maintenance

You can monitor and manage vehicle maintenance using Maintenance Reminders and Service Logs directly from the Vehicle Card on the Map.
