

The Reports Central page in the Driveri Portal is a centralized location for reports that can be run ad-hoc and/or subscribed (scheduled on a daily, weekly, or monthly delivery basis unless otherwise indicated in the below table).

The following actions can be performed on this page:

1. Search for reports
2. Create report requests
3. Download reports
4. Subscribe to reports
5. Manage report subscriptions

## Searching for a Report

Reports can be searched based on the parameters specified in the Search field. To search for reports, start typing the Request ID or Frequency in the Search field located on the top of the right pane.

## Available Reports

The following reports are available on this page:

Report Type	Description
<b>Active Devices Report</b>	Displays details of all devices that are currently active. This Report can be requested on-demand or subscribed on weekly basis. View the list of active devices for all Groups or specific Groups based on the user's access.
<b>Active Vehicle Device Association Report</b>	Displays the list of vehicles that are active at the time of generating the report along with the device association information. View the list of active vehicles for all Groups or specific Groups based on the user's access. Report Request can be filtered on Placeholder Vehicles.

Report Type	Description
<b>Alert Conversion Report</b>	Displays details of Alerts that have been converted to DriverStars or Neutral Events. View the list of converted alerts for all Groups or specific Groups based on the user's access. Report Request can also be filtered on Placeholder Vehicles.
<b>All Alerts Report</b>	Displays the fleet's complete list of alerts for the selected duration and report configuration. View the alerts for all Groups or specific Groups based on the user's access. Vehicle VIN is displayed. Report Request can be filtered on Severity like SEVERE, MODERATE, NEUTRAL for Base and Compound Alerts, on DriverStar Events, and on Placeholder Vehicles.
<b>Device Health Report</b>	Displays details about devices that did not respond for more than 24 hours, devices that have issues reported, and devices to be returned (RMA devices). This Report can be requested on-demand or subscribed on a daily or weekly basis. View the device health information for all Groups or specific Groups based on the user's access. Report Request can also be filtered on the entity on which action is pending (GPS Insight/Fleet/Both).
<b>Driver Insight Report</b>	Displays details about drivers active at the time of generating the report and drivers who were deactivated during the previous week. View the driver status information for all Groups or specific Groups based on the user's access. This report can be requested on-demand or subscribed to on weekly basis. Report Request can be filtered on Driver Status (Activated/Deactivated).
<b>Driver Status Report</b>	Displays details about drivers active at the time of generating the report and drivers who were deactivated during the previous week. View the driver status information for all Groups or specific Groups based on the user's access. This Report can be requested on-demand or subscribed to on a weekly basis. Report Request can be filtered on Driver Status (Activated/Deactivated).
<b>Driver Statistics Report</b>	Displays a summarized view of the Driver Performance, Minutes Analyzed, Alert Risk Profile, and Green Minutes. The report can be requested for one fleet at a time.
<b>Executive Summary Report</b>	Displays a summarized view of the Fleet performance, Driver Performance Ranking, Alert Risk Profile, and Coaching recommendations.
<b>Rejected Alerts Report</b>	Displays the list of alerts rejected by the fleet for the selected duration. View the list of rejected alerts for all Groups or specific Groups based on the user's access. Report Request can be filtered on Placeholder Vehicles.
<b>Restricted Hours Driving Report</b>	Displays details about vehicle movement during restricted hours, as configured by the Fleet. Weekly Reports are delivered at 9 AM on Tuesdays, and Monthly Reports are delivered at 9 AM on the third day of the month. This Report can be requested on-demand or subscribed on a weekly or monthly basis. View the vehicle movement information for all Groups or specific Groups based on the user's access. Report Request can also be filtered on business working days and working hours.

Report Type	Description
<b>Managed Coaching Sessions Report</b>	Displays details about Managed Coaching Sessions for the selected duration. View information pertaining to pending and completed coaching sessions created for the drivers of all Groups or specific Groups based on the user's access. Report Request can also be filtered on Coaching Session Type (Pending/Completed).
<b>Unassigned Drive Time Report</b>	Displays details about the unassigned drive time for all the vehicles in the Fleet. Weekly Reports are delivered at 9 AM on Tuesdays, and Monthly Reports are delivered at 9 AM on the third day of the month. View the information about the unassigned drive time of a vehicle alert for all Groups or specific Groups based on the user's access.
<b>Severe Camera Obstruction Duration Report</b>	Displays details about a Severe Camera Obstruction event, such as Driver Name/ID, Group Name, Event Detection Time, Duration, Collated Alert IDs, and Status.
