With GPS Insight DVIR, you can view submitted inspections for your organization and document repairs for any items declared defective on a previous inspection (requires enabled Repair Vehicle Inspection permission).

## Viewing Submitted Inspections

From the Inspections page of GPS Insight DVIR, you can view submitted inspections from the current date and previous dates/date ranges. Inspections submitted on the current date are listed by default on the Inspection page. You may use the search field to search submitted inspections for the date/date range selected by driver or unit number.

**Note.** Depending on your permissions, you may be able to see submitted inspections completed by others in your organization.

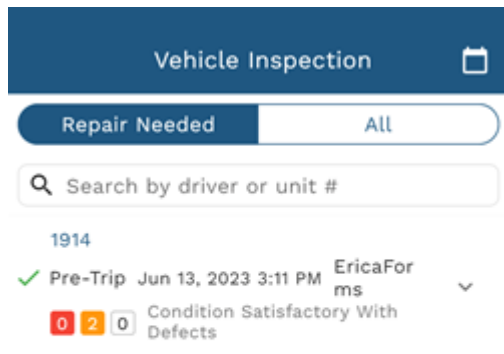

### ► How to view submitted inspections for a previous date:

1. In the GPS Insight DVIR app, tap **Inspections**.

The Vehicle Inspection page appears.

The screenshot shows the 'Vehicle Inspection' screen. At the top, there's a header 'Vehicle Inspection' with a calendar icon. Below it, there are two tabs: 'Repair Needed' (selected) and 'All'. A search bar is present with the placeholder text 'Search by driver or unit #'. The main content area displays a list of inspections. Each entry includes a unit number, a status (green checkmark), a type (Pre-Trip, Post-Trip, Ad-Hoc), a date and time, a driver name, a vehicle type, and a condition status with a color-coded indicator (red, orange, or green) and a text description. At the bottom, there's a red button labeled 'New Inspection' and a navigation bar with icons for Forms, Docs, Time, Inspecti..., Fuel, and Settings.

4. Tap **Repair Needed** to view submitted inspections documenting items requiring repairs only or tap **All** to view all submitted inspections for the selected time period.

This screenshot is a close-up of the top section of the 'Vehicle Inspection' screen. It shows the 'Vehicle Inspection' header with a calendar icon, and the two tabs: 'Repair Needed' and 'All'. A yellow rectangular box highlights these two tabs.

## Documenting Repairs

You can document completed repairs for items marked as defective during a submitted inspection from the Inspections page.

**Note.** Requires the Repair Vehicle Inspection permission enabled for your account.
