If you have toggled on Points of Interest (POI) to display on your Map from the [Using Map Preferences and Controls](#) and click on a POI, the POI Card displays.

With the POI Card, you can:

- view POI name and address,
- copy the location,
- view the dropped pin location in Google Maps in a separate browser tab,
- create a landmark,
- send a dispatch,
- view POI details (e.g., hours, website, phone number, etc.),
- view a list of nearby assets or landmarks,
- and view the Street View of the POI.

## Using the POI Card Header

From the POI Card Header, you can view the POI name/address, copy the location or open the location in Google Maps in a separate browser tab.

### ► How to copy a location:

1. From the Address Card, click on the ellipses button ().

A pop-up window appears.

2. Click **Copy Location**.

The location is copied to your system's clipboard. Use may paste this location within the Portal or externally (e.g., separate browser tab, etc.).

### ► How to view the location in Google Maps:

1. From the Card, click on the ellipses button ().

A pop-up window appears.

2. Click **Open in Google Maps**.

A separate browser tab opens displaying the location in Google Maps.

## Using the Create Landmark and Send Dispatch Features

Using the Create Landmark and Send Dispatch buttons, you can create a landmark centered over the dropped pin location or send a dispatch to selected vehicles/drivers.

**Note.** Driver feature is available to Enterprise customers only. If you would like additional information, please contact your Account Manager.

## Creating a Landmark

### ► How to create a landmark:

1. From the Card, click **Create Landmark** ().

Link: <https://help.wextelematics.com/docs/about-the-map-page/available-map-cards/using-the-point-of-interest-poi-card/> Last Updated: December 11th, 2020

The Create Landmark window appears.

2. Select Circle or Polygon as the shape of your landmark.

**Note.** Polygons allow you to define a more precise boundary by tracing an outline around a specific area (up to 256\* vertices). Polygon landmarks are more often used when the exclusion or inclusion of specific perimeters is important, such as when sending alerts when a vehicle enters or exits a specific location.

3. In the Landmark Name text field, enter a name for the landmark.
4. Select a color for the landmark.
5. Optional: Enter Address Details (Street, City, State, Country, Zip).
6. If you have selected Circle as your landmark shape, you will have the option to enter the radius of the circle in feet/meters (If lat/long coordinates are not entered then the default size is 750 feet or 228.5999926848002 meters).
7. Optional: Use the drop-down window to select a Landmark Group.
8. Click **Create**.

The Landmark is created and the corresponding Landmark Card appears.

## Sending a Dispatch

### ► How to send a dispatch:

1. From the POI Card, click the **Send Dispatch** icon (  ).

The Send Dispatch window appears.

2. In the “To:” field, search for the recipient(s) (driver and/or vehicle) to receive the dispatch.

**Note.** The driver(s) and/or vehicle(s) must have associated contact information (e.g., phone number, email address, etc.) to be searchable/selectable.

3. The Location field is pre-populated with the POI address. If you have a supported tablet, you may add another location for dispatch.

4. Click **Send**.

The Dispatch is sent to your selected recipient. Below is an example of what the dispatch looks like when sent via SMS.

**PHONE NUMBER**  
(480) 515-3777

**WEBSITE**  
[www.wholefoodsmarket.com](http://www.wholefoodsmarket.com)

**HOURS**

|           |                    |
|-----------|--------------------|
| Monday    | 7AM-9PM            |
| Tuesday   | 7AM-9PM            |
| Wednesday | 7AM-9PM            |
| Thursday  | 7AM-9PM            |
| Friday    | 8AM-9PM (open now) |
| Saturday  | 7AM-9PM            |
| Sunday    | 7AM-9PM            |

**Note.** If you would like to collapse this section of the card, click on the Collapse button (  ). Once collapsed, the Expand button appears and can be clicked on to expand the section.

## Viewing Nearby Assets and Landmarks

You can view a list of all nearby assets and landmarks to the POI in the Nearby Assets section of the POI Card.

## Nearby Assets

Assets are listed by distance from the POI with the entered radius (in miles) and display Vehicle label and associated driver (if assigned), and current status. You can adjust the radius (default is 25 miles).

Nearby ^

**Asset** Landmark

Radius (mi) ⓘ

Only show filtered assets

| NAME  | DISTANCE <span>∨</span> |
|---|-------------------------|
|  <b>8005-Temp 4A</b><br><i>(no driver assigned)</i><br>● Last reported 11 days ago | 0.4 mi                  |
|  <b>CSM-ELD</b><br>Adam Gabardy<br>● 0 mph ENE                                     | 0.4 mi                  |
|  <b>TestLP3</b><br><i>(no driver assigned)</i><br>● Stopped 6 days               | 0.4 mi                  |

**Note.** From the Nearby Asset list, you can click on the vehicle label to open the associated vehicle card for the vehicle.

## Using the Street View

You can use the Street View to view the street-level imagery of the POI.

### ► How to use the Street View:

1. From the Street View section of the POI Card, click on the Expand button ( ∨ ).

The Street View section expands to show the street view of the POI.

## Street View

**Note.** If Street View is unavailable for the location, a message is displayed stating: "Currently unavailable for this location".

2. To interact with the Street View, click on the screen to move the view up/down the street. To move the view, click and drag on the Street View screen. To zoom in or out, use the trackpad or trackball on your mouse.
3. To expand the Street View to Full Screen, click the **Toggle fullscreen view** button (). To exit Full Screen view, press the **Esc** button on your keyboard or click the **Exit full screen view** (.
4. To collapse the view, click the Collapse button.
