Driveri Release 4/28/2021

Here's what's new for Driveri!

Driveri Portal Updates

Enhancement to Active Vehicles Report

The "Active Vehicles Report" in Reports Central is renamed "Active Vehicle Device Association Report."

- This report now displays the list of vehicles active at the time of generating the report along with the device association information.

UI Changes on Reset Password Page

The following changes have been introduced on the Reset Password page (for Driveri portal only):

- While typing the new password, real-time feedback is provided to indicate if the password meets the required criteria.

- If the password strength is weak or medium, suggestions are provided to set a strong password.

- When the passwords entered in the New Password and Confirm Password fields do not match, a message is displayed to the user.
