Link: <https://help.wextelematics.com/eld-flex-portal-server-release-6-9-21/> Last Updated: June 9th, 2021

This Release Notes announcement is for ELD with Flex users.

What's New

Portal & Server Updates

Portal:

- Showing the added exceptions annotation on driver's logs

Server:

- DVIR History page – Support French, Spanish and English languages on DVIR PDF generation
- HOS Reports page – Documents Report support French, Spanish and English languages on Documents' PDF generation

Bug Fixes

Portal:

- Fixed the Agricultural Operations issues for Backwards Compatibility
- Logs page
 - Fixed an issue where the Grid Chart Total Hours was incorrect
 - Fixed an issue where the Total Mileage was incorrect under the Vehicle Information section
 - Fixed an issue where deactivated drivers were still showing on the Violations page

Server:

- Driver's Portal > Certified Driver's Daily Log PDF: Fixed the Agricultural Operations issues for Backwards Compatibility
- US Regulations > ELD CSV Output File: Fixed an issue where the recorded events' Accumulated Miles and Engine Hours in between of the Personal Conveyance and ClearPC were set to 0 rather than blank
- Alerts Management page: Fixed an issue where Admin Users could see all alerts, even outside authorized terminals
- Fixed the issues on DVIR Defect report
- Fixed an issue where DVIR only drivers could still have a CDL number
- Fixed an issue where Admin Users could see all vehicles, even outside authorized terminals
- Fixed an issue where Driving exclusion remarks were not saved to the ELD CSV Output File
