

# ELD Flex Portal & Server Release Notes

## 7/16/2021

---

Link: <https://help.wextelematics.com/eld-flex-portal-server-release-notes-7-16-2021/> Last Updated: July 16th, 2021

This Release Notes announcement is for ELD with Flex users.

### Bug Fixes and UI Updates

#### Portal:

- Drivers Management page – Fixed an issue where the sample CSV format for driver bulk upload has the “Enabled Features” and “Show Personal Conveyance” values switched
- Equipment Management page > Edit Equipment dialog – Fixed an issue where the Device field is empty after uploading CSV Equipment with VBUS device written in upper case
- Fixed an issue where the GPSI-5000 VBUS device is not appearing on the application > Supported VBUS Devices dialog
- Fixed an issue where the Logs page is slow due to unnecessary API requests

#### Server:

- Fixed an issue where a timeout is encountered when updating an inspection with lots of attached images
- Removal of Driver’s CDL number in alerts email
