ELD Flex Portal & Server Release Notes 5/13/2021

Link: https://help.wextelematics.com/eld-flex-release-5-13-2021/ Last Updated: May 13th, 2021

This Release Notes announcement is for ELD with Flex users.

What's New

Portal & Server Updates

Portal

- Addition of 'AgriculturalOperations' label for new eventType 'AgriculturalOperations'

- Unidentified Driving page
  – Hiding of the Unidentified On Duty events from the data table

- Settings > Alerts Management page
  – Addition of 'Malfunctions' alert option

Server

- Addition of CDL Number and Vehicle Name in the Alerts email

Bug Fixes

Portal:

- Logs page
  – Fixed an issue where the Yard Moves was not being shown on the grid chart correctly
  – Fixed an issue where the Total Mileage was incorrect when a driver used multiple vehicles in a day

- Drivers page
  – Fixed an issue where the Uncertified Logs column did not include the logs without driver activity

Server

- Fixed the issues on User role permissions to allow DVIR specific permission without the need to give view all permission.

- Fixed an issue where the Added Agricultural Exception remark was missing in ERODS Annotations

- HOS Reports page
  – Fixed an issue where the Border Crossing remarks were showing on the Driver Logs report even if the account property: hos.hide.border.crossing.remarks was set to True
  – Fixed an issue where the VBUS Disconnection report was not translated to French
  – Multiple Driver Logs report: Fixed an issue where the data on the Driver Logs, Edited Logs, and Edited Logs with Original reports' exported CSV were displayed incorrectly
