

This Release Notes announcement highlights new hardware updates.

## NEW Add-on Configuration – GPSI-3900s and GPSI-4000s

A new add-on configuration is now available for GPSI-3900s and GPSI-4000s where users can be alerted if/when the device reads an external voltage threshold of 11 volts.

**Note.** Please coordinate with our Support team to have your devices updated.

## Magellan SmartFleet Map Update

A new Magellan map update is now available for download, including:

- **SmartFleet Navigation APP v159**

Fixed system brightness issue – Set system brightness to the lowest level. Start navigation APP. System brightness automatically changes to the maximum level.

- **Map v86**

New map update

**Note.** Please coordinate with our Support team to have your tablets updated.
