Introducing the ST-610

Ideal use-case for this device: Trailer-tracking or non-powered assets

Utilizing the latest in LTE-M/NB Cellular technology, the ST-610 is an upgrade to the ST-600 device. The ST-610 has a large rechargeable battery offering long battery life with a large, fast-charging solar panel so you can track, monitor and manage a wide variety of durable and perishable assets like never before.

Additionally, the ST-610 offers an IP68/IP69K rating and the ability to connect to Wi-Fi (when GPS satellite signal is unavailable) for indoor tracking purposes.
